Hiring Team
Eviden (Atos Group)
Finland

Dear Hiring Team,

I am excited to apply for the Software Developer role at Eviden, where I believe my 4+ years of Java development experience and passion for scalable, secure solutions align strongly with your team's focus on digital transformation and enterprise-scale applications.

In my current and previous roles, I have specialized in delivering robust software solutions for microservices architectures and low-latency, high-throughput environments, with hands-on experience in Kubernetes.

I am confident my background in writing clean, scalable code and troubleshooting complex systems will enable me to make an immediate impact on your projects.

Thank you for considering my application. I would welcome the opportunity to discuss how my experience and enthusiasm align with Eviden's goals.

Sincerely,
Weilai Wang
